

HELP DELIVER HOPE FOR THE HOLIDAYS

It costs the NHS over £2000 to provide a safe delivery in the UK and in the US costs are considerably higher - an eye watering \$32,000!

Good maternal healthcare can prevent obstetric fistulas occurring and we believe it is every woman's right to be able to deliver safely and with dignity.

For every **£100** we raise we can provide a safe delivery for mum and baby in Africa. Our Christmas campaign 'Hope for the Holidays' aims to raise £10,000 to safely deliver 100 babies over the Christmas period.

Donate today to help us raise £10,000 and we can safely deliver 100 babies over the Christmas period
